Product Information Sheet

Product
Bio Dunisoft® (Napkins and Duniletto® slim)

Raw Material
Wooden pulp

Additives
Dyes
Binder

Packaging

CU packaging	Napkins	PP foil	
CU Packaging	Duniletto®	Slim	Cardboard box with/without PET window
CU Packaging	Fingerfood	Cardboard box	
Outer packaging		Corrugated board	

Field Of Application
The product is intended for the use of enhancing the tabletop environment.

Packaging and Packaging Waste
The product and packaging comply with all essential requirements of Directive 94/62/EC on packaging and packaging waste as well as the forthcoming Packaging and Packaging Waste Regulation (PPWR), Regulation (EU) 2025/40.

Environmental Aspects
Product
The Bio Dunisoft products are manufactured from ECF-pulp (Elementary Chlorine Free), i.e. pulp bleached without using chlorine gas. The pulp is white or dyed. The binder used is fossil-free.

Product is FSC certified according to “Mixed Sources” certification number DNV-COC-000148.

PFAS (per- and polyfluoroalkyl substances) are not being used in any step of manufacturing.

Packaging
The PP foil, used for napkins, is made from virgin plastic.
The cardboard box for Duniletto® Slim and Fingerfood is made from recycled fibres.

The corrugated board box for transportation is unbleached and to a large extent made of recycled fibres.

Product Safety
The product fulfils the following:

- Regulation (EC) No. 1935/2004 of the European Parliament and of the Council of 27th October 2004 concerning materials and articles intended to come into contact with food.
- EU Regulation 2023/2006/EC (GMP)
- BfR-Recommendations on Food Contact Materials, XXXVI. Paper and board for food contact / BfR = Federal Institute for Risk Assessment
- Coloured products are tested according EN 646 (Determination of colourfastness of dyed paper and board) and has been found to have good fastness.
- Duni manufacturing units are certified according to the international quality system ISO 9001 and environmental system ISO 14001 as well as to BRC for hygiene.

End of Life
Recycling
Collection, sorting and material recovery are all part of the recycling process. Recycling is dependent on local waste handling infrastructure.

Used products should be handled according to local regulations, for best guidance, please check with local waste handling company.

Recycling of the packaging material is possible.

- Bio Dunisoft®
  Recycling depends on collection, sorting and general material acceptance. Consult with a local waste handler for recycling recommendations.
- Packaging material (Napkins)
  Can be recycled as plastic.
- Packaging material (Duniletto Slim and Fingerfood)
  Can be recycled as paper.
- Outer Packaging material
  Can be recycled as paper.

Compostability
The product is compostable in a home compost environment which means composting allows products to biodegrade under those conditions.

Ok Compost Home
Certificate for awarding and use of the ‘OK Compost Home’ conformity mark TA8022206997.

Some areas may allow products to be disposed with food waste, but to be sure, please check with local waste handling company.

Energy Recovery
Incineration facilities for energy recovery are dependent on local infrastructure. Incineration for energy recovery is a good alternative when material recovery is not available by recycling.

Validity
This is issued 2026-05-29-. It is revised when there is a change in the manufacturing process, in the product or in legislation.
